To whom it may concern.

I, Dr Robert Cammack BDS Dental Surgeon at Vaughan Dental Practice, Harpenden and Qualified Dentist of 30 years was very impressed by the innovative approach to tooth whitening and the STYLISMILE programme.

The benefits of blue light LED technology are well known in the Dental industry and the idea of incorporating this technology into the head of a sonic toothbrush is revolutionary. This approach, combined with the concept of doing a small amount of whitening every time you brush your teeth, as your tooth brushing routine, gives me full satisfaction in endorsing this product and the results it claims.

It is a slow and gentle approach to whitening, giving excellent results over a small period of time.

STYLIDEAS may at their discretion include "*Dentist Approved*" on the product packaging and marketing materials. They may also include my quote, name and photo on all.

Regards

Dr Robert Cammack BDS  
Dental Surgeon  
Vaughan Dental Practice, Harpenden
